

ABOUT US

Attenuate is a Belgium-based audio outsourcing studio built around one goal: helping projects sound as distinctive as they look and play.

We work with indie and double-A teams to develop strong sonic identities, support production and solve both creative and technical audio challenges. By combining an adaptable core team with a trusted network of specialists, we can scale to match the needs of each project while staying closely integrated with the people behind it.

OUR SERVICES

Attenuate provides comprehensive, end-to-end audio solutions across all media:

 Sound Design & Asset Production

 Middleware & Engine Implementation

 Foley & Field Recording

 Music Composition & Implementation

 Technical Sound Design

 Audio Direction & Consulting

 Dialogue & Voice Production

 Technical Audio Implementation

We work with industry-standard tools to integrate seamlessly into existing projects, while remaining flexible enough to use non-conventional/new tools and support proprietary engines and custom pipelines.

THE TEAM

GILLES

TECHNICAL AUDIO DESIGNER

Associates

PATRICK-RAUL

TECHNICAL AUDIO DESIGNER

OUR MISSION

To create emotionally resonant, technically precise audio experiences that strengthen every project we work on.

We combine creative sound design with technical expertise to help studios of any size build immersive worlds that players and audiences can truly feel.

OUR VISION

To become the world's leading audio outsourcing partner for entertainment, setting the benchmark for quality, innovation and technical excellence while remaining at the forefront of how sound shapes games, media and emerging experiences.
